### PROFILE

I am a motivated Software Engineering student in my 8th semester with a solid foundation in mobile and web development. I have hands-on experience building applications using Flutter, Java, and C++, alongside a strong passion for integrating AI and machine learning into practical solutions. I am eager to apply my technical skills, understanding of OOP, and design patterns to a dynamic development team.

### EXPERIENCE

#### Software Developer Intern IT Barrels: 3 Months

- Developed responsive mobile UI/UX using Flutter & Dart.
- Collaborated with the design team to implement pixel-perfect screens.
- Fixed bugs and optimized application performance for smoother user interaction.

#### Mobile App Developer

- Contributed to the development of a comprehensive Enterprise Resource Planning (ERP) application.
- Collaborated with senior developers to design business management modules.

### EDUCATION

#### UNIVERSITY OF MANAGEMENT AND TECHNOLOGY (UMT) 2022 - Present

Bachelor of Science in Software Engineering

### SKILL

- Flutter & Dart
- Java & C++
- HTML & CSS
- AI/ML Model Training
- Object-Oriented Programming (OOP)
- Software Design Patterns
- Database Management (Firebase)
